

Doorbell Transformers:

- ✔ Doorbell Transformers provide a low voltage AC supply, typically 8-24V to safely operate door chimes, bells, call buzzers etc.
- ✔ In built PTC overload protection.
- ✔ Short time rating, not designed for permanent loads.
- ✔ For domestic installations the enclosure has to comply with the requirements of Reg. 421.1.201

RK 81 8V AC

RK 24 8v-12v-24v AC

Ordering reference: see below

Product Standard: EN61558-1

Doorbell Transformers / 230V 50Hz supply	
Rating: Refer to the technical data link above	
Voltage tapings & current	Reference
4V - 2A, 8V - 2A, 12V - 1.5A	RK12
8V - 2A, 12V - 1.3A, 24V - 0.6A	RK24
8V - 1A	RK81
4V - 3A, 8V - 2A, 12V - 2A	RK3U
