

Programmable Digital timer:

- ✔ Automatically switches the supply on and off based on ambient light conditions.
- ✔ Adjustable switch-on threshold for Dusk.
Switch-off threshold fixed at 1.5 x switch-on light level.
- ✔ Timer version allows additional energy saving e.g. lights on at dusk off at midnight, back on at 4 AM until light level reaches the switch-off threshold.
- ✔ Suitable for outside installation.
- ✔ Standard casing White.
